

Institutional Distinctiveness

The Institute envisages becoming a socially accountable Institute of excellence which conserves, creates, and imparts pertinent knowledge and values to students, particularly of rural and remote areas. Since our inception, we have maintained social inclination towards student from undergraduate colleges in rural areas around Baramati. In Institute's efforts to promote rural student for Management education, it has focused on students and colleges in Baramati vicinity. The informal feedback on CET workshop, interaction with HoDs, Principal of colleges and the students help the Institute to plan skill development workshops for students from rural and remote areas.

The idea of skill development workshops as an extension service to the community was discussed and approved in Advisory Board meeting of 2015. The Institute made a strategic plan of conducting Skill development workshops by visiting the colleges of the concerned areas. Accordingly, area coordinators were nominated in consultation with the Director and this activity came in force in the year 2016.

The Institute customized the training modules as per need of the students. The Institute achieved this customization through mutual understanding and discussions between HoDs/Principals of selected colleges and area coordinators of the Institute. The implementation of workshops was done by the Institute's in-house faculty members by visiting the colleges. Considering the socio-economic background of rural students, the Institute took care of all the expenses and gave certificates to the participants of the workshop. The skill development workshops conducted in more than 10 Colleges have benefited more than 1500 students in the academic year 2019- 20. The Institute has received excellent feedback and solicitations to hold the same in respective colleges.

This skill development initiative has been appreciated by the Government of Maharashtra's District Skill Development, Employment and Entrepreneurship Guidance Centre-Pune, MCED-Pune and Local Inquiry Committee (LIC), SP Pune University.

This activity has gained popularity among the student fraternity. The HoDs and Principals look at the Institute as a skill development partner for grooming their students. The Institute has inked MoUs with selected colleges for enhancement and cooperation in the field of higher education and skill development.

Indeed, the Skill Development Workshops have given a distinctive identity and put us on the path to bring our Vision and Mission into reality. The detailing and the supportive evidences are attached herewith.
