4.3 - IT Infrastructure

4.3.1 - Institution frequently updates its IT facilities including Wi-Fi

IT infrastructure and its maintenance is a major function of the administration at our Institute. Administrative committee works dedicatedly to get the inputs from students, faculty and other importance stakeholders. These inputs are then processed to equip the Institute with state of art IT infrastructure and allied facilities. Through these facilities we incorporate e-governance, ICT based education and use of paper less processes in academic and administrative work.

IT facilities at our Institute are as follows:

Updating Mechanism for IT facilities:

We give a top priority for updation of our IT infrastructure. We maintain licensed software and update them regularly twice in a year as per the requirements. IT Lab Coordinator and its Assistant takes care of all the updates and new purchases for IT facilities at our Institute. We have the “Updation policy” displayed at IT lab. We maintain a separate budget for meeting the updating requirement of IT facilities.
