

Best Practice 02:

Title: Transformation of Library Services from Physical to Digital

Goal: Strengthening Library services by providing user friendly and remote access to students

Objectives:

1. To enhance the utilisation of library infrastructure
2. To provide seamless remote access of information
3. To act as gateway of digital and electronic information for the users

The Context: During Covid-19 pandemic, it was a challenging task for Institute to make library resources available to the students and staff members.

Practice:

Institute had already taken steps towards converting Library from Traditional to Digital. The library has a well-defined policy for, use of e-library facility, access to e-journals, e-books, e-databases of the Institute through internet login and password from their respective places. Before pandemic, one of the subscribed databases of the Institute i.e. EBSCO (a collection of 500 books) was IP based which was later made remotely accessible. To make the library users aware regarding this service, a webinar was organised. Students and staff took full advantage of these digital library facilities during Covid-19 pandemic. On top of that library has “Easylib Software 4.3.3 having SQL database version 005”. During Covid 19 pandemic condition, easy and remote access is provided to the users for subscribed databases of e-journals and e-books. All the students and teachers are provided with username and password through email and WhatsApp, Telegram.

Evidence of Success:

The outcome of this is improved performance of students in Summer Internship Projects (SIP), Research contribution in Conference, Participation in online activities, and the University Examination results. Thus, students and teachers were stimulated and inspired with use of e-Library.

Report on Webinar

As lockdown period was declared due to Covid 19 Pandemic, library users have no physical access to the library. However students and teachers regularly needs library resources for their study and research .To train them in accessing and using e books efficiently subscribed by AIMS webinar is organised on the topic “**EBSCO Database-Perpetual E books**”.

All the students and teachers are provided with User name and Password through email and WhatsApp.

To make library users regarding this service a webinar was organised. The details of the same are as below:

Topic : “EBSCO Database-Perpetual E books”.

Speaker : Mr. Gaurav V. Date, Training Manager -Maharashtra
EBSCO information Services

Date : 7th May, 2020

Time : 9.50 AM to 11.00 AM

Session Link:
