A Student Trip to AIC -ADT, Shardanagar

AIMS, Baramati had organized a student trip to Atal Incubation Centre set up by AIC-ADT Foundation at their Sharadanagar Campus on 13th May 2022.

Mr. Amit Kale and Ms. Sonali Saste, the Incubation Managers at the centre received us and briefed on the facility. The centre has been established as a part of Atal Innovation Mission floated by NITI Ayog and is actively carrying out exemplary work in promoting entrepreneurship in the areas surrounding Baramati.

The students visited various sections such as processing labs, 3D printing facility, etc., and learnt emergence of about 30 startups at various stages from conception to inception.

The visit was highly inspiring to our students to take up entrepreneurship a career option.

Following are the glimpses:
