Anekant Education Society @ A Glance

Anekant Education Society is established in 1961 under the able guidance of Late Shri Fulchandji Gandhi, Education Minister of the Former Hyderabad State. The founder President of the Society Late Shri Mani Sethulchand Hirachand Doshi, founder President of Premier Automobiles Ltd., and Walchand Group of Industries was determined on attracting the best talent to institutions operating under the auspices of AES.

The society has chosen the Jain concept of "Siddhirnekanat" and "Anekantvad" in the nomenclature of the Society. The Society started Undergraduate Programs in Baramati in the year 1962. The college eventually was renamed as Tuljaram Chaturchand College. In a span of about 5 decades of its presence, Anekant Education Society has touched upon the lives of almost every household in and surrounding areas of Baramati.

Anekant Institute of Management Studies (AIMS)

Anekant Education Society has added another feather to its cap by starting AIMS to provide MBA course. AIMS is certainly working beyond excellence in all the accreditations, affiliations and Certifications of the nominated authorities. The initiative is to develop management professionals with a view to excel in the corporate world as well as take it to new heights. The need is to nurture the talents and hone their skills which are achieved only through AIMS. Since its inception, AIMS is providing quality education and in a period of few years the Institute has made its mark on academic, cultural and social environment of Baramati.

According to Michael Unger, resilience is the human capacity to navigate and negotiate culturally meaningful resources to sustain their wellbeing. It has to do with a person's ability to make plans and follow through with them, to problem solve, and to manage impulses and feelings. Resilience is more than a skill – it's an adaptation. Human resilience manifests in children, adolescents, adults, senior citizens, and the elderly at the individual level. It is embedded in functional human relationships and healthy interactions of the individual with the immediate social, cultural, economic, and biophysical environment. When the social-ecological systems and subsystems present threats to human lives and livelihoods or are threatened by human actions and modes of livelihood, human resilience takes multidimensional forms and meanings. The present conference titled "Fostering Human Resilience- Catalyst for Management, Science and Technology" sets the tone for deliberations on multidimensions and manifold influences of the human resilience to achieve human goals in diverse fields.

Objectives of Conference

1. To offer a common platform to Academicians, Researchers, Industry Professionals, Social Reformers and Students to present their research work.
2. To create a forum for effective exchange of ideas to tackle the future global challenges from the perspective of fundamental research and its applications for social good.
3. To share experimental outcomes in fields of model developments in Science, Technology, Social Science and Management which aim to formulate appropriate and effective strategies for fostering human resilience.

Anekant Education Society @ A Glance

Anekant Education Society is established in 1961 under the able guidance of Late Shri Fulchandji Gandhi, Education Minister of the Former Hyderabad State. The founder President of the Society Late Shriman Seth Lalchand Hirachand Doshi, founder President of Premier Automobiles Ltd., and Walchand Group of Industries was determined on attracting the best talent to institutions operating under the auspices of AES.

The society has chosen the Jain concept of "Siddhirnekantat" and "Anekantvad" in the nomenclature of the Society. The Society started Undergraduate Programs in Baramati in the year 1962.

The college eventually was renamed as Tuljaram Chaturchand College. In a span of about 5 decades of its presence, Anekant Education Society has touched upon the lives of almost every household in and surrounding areas of Baramati.

Anekant Institute of Management Studies (AIMS)

Anekant Education Society has added another feather to its cap by starting AIMS to provide MBA course. AIMS is certainly working beyond excellence in all the accreditations, affiliations and Certifications of the nominated authorities. The initiative is to develop management professionals with a view to excel in the corporate world as well as take it to new heights. The need is to nurture the talents and hone their skills which are achieved only through AIMS. Since its inception, AIMS is providing quality education and in a period of few years the Institute has made its mark on academic, cultural and social environment of Baramati.

Conference Theme

According to Michael Unger, resilience is the human capacity to navigate and negotiate culturally meaningful resources to sustain their wellbeing. It has to do with a person's ability to make plans and follow through with them, to problem solve, and to manage impulses and feelings. Resilience is more than a skill – it's an adaptation. Human resilience manifests in children, adolescents, adults, senior citizens, and the elderly at the individual level. It is embedded in functional human relationships and healthy interactions of the individual with the immediate social, cultural, economic, and biophysical environment. When the social-ecological systems and subsystems present threats to human lives and livelihoods or are threatened by human actions and modes of livelihood, human resilience takes multidimensional forms and meanings. The present conference titled "Fostering Human Resilience- Catalyst for Management, Science and Technology" sets the tone for deliberations on multidimensions and manifold influences of the human resilience to achieve human goals in diverse fields.

Objectives of Conference

1. To offer a common platform to Academicians, Researchers, Industry Professionals, Social Reformers and Students to present their research work.
2. To create a forum for effective exchange of ideas to tackle the future global challenges from the perspective of fundamental research and its applications for social good.
3. To share experimental outcomes in fields of model developments in Science, Technology, Social Science and Management which aim to formulate appropriate and effective strategies for fostering human resilience.
