Baramati.

SUB: Report of Teaching Learning Methods used in a class-Reg.

Name of Teacher: Dr Tanaji Chavan

Respected Sir,

I have received opportunity to teach the course "Personal Financial Planning". In this course we (Teacher and Students) have discussed the concept of Budgeting and asked to prepare the Family budget. Students collected required data from the selected family and prepared the budget for that, family.

This experiential learning activity achieved following outcomes:

1. Students got practical exposure to collect data on field.
2. Student's analytical skill enhance while compiling data in the information.
3. Students able to communicate with respondent
4. Students have developed budget for family.

This is learning by doing.

Now students are comfortable and ready to prepared a budget for any family.

This is for your kind information and submission only.

Thanking you.

Regards,

Course Teacher- Dr Tanaji Chavan
