The Urban Learning Internship Program for Swacchata

A Capacity Building Initiative by
Swachh Bharat Mission – Urban
Ministry of Housing and Urban Affairs
Government of India

Swachh TULIP - The Urban Learning Internship Program for Swachhata (TULIP for Swachhata)

Background:

Swachh Bharat Mission-Urban (SBM-U), launched in October 2014 by Hon'ble Prime Minister, has witnessed a radical change in the urban sanitation scenario in India. Our cities, streets, neighborhood have become visibly cleaner and there has been a positive change in attitude and mindset of citizens towards 'Swachhata'. Hon'ble Prime Minister had launched SBM-U 2.0, on 1st October 2021, not only to consolidate and sustain these achievements, but also to take Urban India to the next level of 'Swachhata' by creating "Garbage Free Cities". This has added another definitive chapter in not only India's sanitation journey, but it is also a landmark step in urban transformation. Taking due cognizance of the complex and dynamic nature of the sanitation and waste management ecosystem, along with the comprehensive mandate of activities to be discharged by States/UTs and ULBs across the Mission's focus areas, there is a pertinent need for developing and enhancing the institutional capacities across the spectrum of stakeholders so as to effectively deliver the mission mandate and the objectives of the Mission.

Purpose:

The Ministry of Housing and Urban Affairs is proactively innovating various new programs for holistically engaging the youth of the country with the Mission. SBM-U TULIP Internship Program has been conceptualized for strategically engaging youth of the country to participate in the urban reform process at City, State and National level. The Mission seeks to engage students and fresh graduates from academic and technical institutions for supporting the National Mission Directorate, States/UT Urban Development Departments, and the cities in programmatic interventions under SBM-U 2.0. SBM-U TULIP internship has been integrated into the existing TULIP platform with the intent of engaging the youth of the country in the urban development trajectory of India. The internships will leverage the existing architecture of the TULIP platform to engage students as interns across the focus areas of the Mission. The intent of the SBM-U TULIP internships is to craft a mutually beneficial ecosystem for both the prospective students as well as the State/UT Urban development departments and the ULBs engaged in the implementation of the Mission.

How students will benefit from the SBM(U) - TULIP internships

Students from any educational background will benefit via the internship programme from:

- **Gaining an exposure to the urban governance ecosystem.**
- Unique **opportunity to apply their academic learnings and skills in the complex dynamics of the sanitation and waste management sector of urban India.**
- The internship program will enable the youth **to build their capacity in programme implementation, gain field experience and develop their professional pathways for the future.**
- The youth will also be accorded the opportunity to network with professionals in their field of interest.
- Platform for engaging the youth and enabling them to participate in the local urban governance ecosystem. The platform will further provide opportunities for constructive engagement that promotes innovation and creates impact at the local level.

How States/UTs and Cities will benefit from the SBM-U TULIP internships

The States/UTs and the ULBs on the other hand will benefit from the knowledge, skills, fresh ideas, and perspectives that augment their capacities to streamline operations and achieve higher efficiency in operations, management, monitoring and developing new innovative solutions to suit the local context and challenges in sanitation and waste management. **SBM-U internships will act as a catalyst for enhancing the institutional capacities for the Mission by enabling the States / UTs and ULBs to access a pool of specialist resources**, in consonance with the core objectives outlined in the SBM-U 2.0 Operational Guidelines. Additionally, this serves as an opportunity to infuse fresh talents into the local governance ecosystem.

Role of stakeholders

MoHUA: The Ministry of Housing and Urban Affairs sets the overall guidelines of the program, guide through the effective implementation while providing an impetus to capacity building of stakeholders of the urban governance ecosystem. The States/UTs and in turn, all Urban Governance Bodies have been given flexibility with respect to discretion in terms of engagement of interns under the program.

States/UTs: At the State/ UT level, the SBM-U Mission Directorate will be responsible for effective coordination amongst Urban Local Bodies throughout the process to ensure implementation. The State / UT Mission directorate will also be setting the target for onboarding interns by their cities.

AICTE: As per the MoU signed with the Ministry of Education, the All India Council for Technical Education will be responsible for all actions related to Platform management and end to end digital handholding support. AICTE will also be responsible for effective coordination among colleges across the country.

ULBs: All Urban Local bodies will be at the forefront, implementing the program and creating an ecosystem for promoting experiential learning of the youth and to get specialized human resources and fresh talents to support them in program implementation.

Role of the SBM-U interns

- To work closely with Swachh Bharat Mission – Urban divisions at the State/UT and City level with key administrative and technical officials of the ULBs supporting the specific projects or programmatic components.
- Develop a sound understanding of the regional and contextual challenges and priorities of States/UTs and ULBs and leverage the knowledge and understanding to devise and deliver targeted solutions.
- Develop knowledge products in the form of SOPs, reports, and compendiums by identifying relevant best practices and case studies across the focus areas of the Mission and aligned with the interventions undertaken by the departments and cities.
- Identification, assessment/development of digital solutions to be adapted for monitoring/program management and support in its implementation.
- Identification and piloting of service delivery/business models at the ULB level.
- Undertake field/site visits to develop a sound understanding of the operations undertaken by the State/UT departments and ULBs.
